Cloud Specialist

Employment Type
Full-time

Job Location
Abu Dhabi, Abu Dhabi, United Arab Emirates

Industry
IT

Description

Key Responsibilities:

- Cloud Management: Deploy, manage, and operate scalable, highly available, and fault- tolerant systems on Azure and other cloud platforms.
- Automation: Develop automation scripts and tools to streamline and improve the efficiency of cloud operations.
- Security: Implement and manage security measures to protect data and applications in the cloud environment.
- Monitoring: Utilize network monitoring and diagnostic tools to ensure optimal performance and availability of cloud resources.
- Collaboration: Work closely with other IT professionals, including DevOps engineers and the security team, to align on best practices and ensure seamless integration of cloud solutions.
- Support: Provide advanced troubleshooting and support for cloud-related issues, ensuring minimal disruption to business operations.
- Compliance: Ensure cloud solutions meet industry standards and regulatory requirements.

Required Skills:

- Troubleshooting: Excellent troubleshooting and problem-solving skills.
- Team Collaboration: Ability to work well in a team environment and collaborate with other IT professionals.
- Communication: Strong communication skills, both written and verbal.
- Network Monitoring: Experience with network monitoring and diagnostic tools
- Industry Knowledge: Knowledge of industry standards and regulatory requirements for communication systems.
- Certifications:
- Azure Certifications: Microsoft Certified: Azure Administrator Associate, Microsoft Certified: Azure Solutions Architect Expert, or similar.
- Networking Certifications: Certifications such as CCNA Collaboration, CCNP Collaboration, or similar are a plus.
